LETTER OF APPEAL

CC Docket No.96-45 & 02-6

Marlene H. Dortch, Secretary  
Federal Communications Commission  
Office of the Secretary  
445 12th Street, SW  
Washington, DC 20554

**CC: 02-6**

FOUR PAGES TOTAL

This letter appeals the funded amount of Okmulgee ISD #1, (BEN 140197) 471 Application Number 547821, FRN 1511969.

In this instance, the Applicant made a ministerial/clerical error in totaling the non-recurring pre-discount amount of FRN 1511969. The applicant requested \$135,642.43 as a pre-discount amount, when in fact the Item 21 documentation for this FRN shows that the correct amount should have been \$269,786.17.

USAC could have identified this error during the PIA process. The total price of both contracts is listed on each document. Page one of the Item 21 shows a "\$145,190.30 Grand Total" and page two shows a "\$146,702.06 Grand Total." Adding up the totals on these two documents shows the correct pre-discount price, \$269,786.17. ( $\$145,190.30 + \$146,702.06 - \$22,892.38$  (BMIC costs) = \$269,786.17).

Per the Bishop Perry order, we ask that the FCC to instruct the SLD to revise the pre-discount amount for FRN 1511969 to reflect the correct, documented amount of \$269,786.17.

If you have any questions about this appeal, please use the contact information below.

Sincerely,

Chris Webber

## USAC Can Grant an Appeal ...

- When the appeal shows that USAC erred in its initial review.
- When the appeal shows that the applicant made a mistake and that USAC could have identified the mistake from information provided with the application.
- When the appeal provides documentation to correct an incorrect USAC assumption due to insufficient information.
- If USAC obtains policy clarification or new policies between the time of funding commitment and the appeal decision.
